FleetEye puts you in charge of your fleet. FleetEye is a browser based vehicle tracking solution that delivers much more than basic track and trace.

- Constant updates giving accurate trails
- Vehicle check / fault management
- Driver behaviour alerts / reports
- Fuel efficiency charts
- Multi-depot support
- Optional 2-way messaging
- Comprehensive reporting
- Integrated email and SMS
- Real-time integration with Weighsoft
- Job information displayed
- Links to sweeper brushes, skip hoists and on-board weighing with detailed reporting
- Custom user dashboards and alerts

FleetEye is fixed cost and doesn't tie you in to long-term, inflexible contracts.
